

Launch a New Career:

COURSE FOR DRONE OPERATION & AERIAL PHOTOGRAPHY FOR AGRICULTURE

in Northern Israel

Dive into the world of precision agriculture and discover how advanced technology can boost crop yields and revolutionize farming. As a certified drone operator, you'll gain the skills to gather vital data that helps farmers assess field conditions, plan crop rotations, optimize fertilizer usage, and much more.

Gvahim, a non-profit organization, in collaboration with the **Israeli Farmers' Union "Falcha"** and the **Ministry of Economy**, have created a subsidized course tailored for you—with the added potential for future employment in the field.

Course Duration & Details:

150 HOURS (3 MONTHS)

Classes are held 2-3 times a week in the afternoons at an agricultural school in Migdal HaEmek

Graduates who pass the state exam successfully will

RECEIVE A LICENSE

from the Israeli Civil Aviation Authority to operate drones weighing up to 25 kg

Limited Spots Available: Only

24 SPOTS

in the course.
Don't miss out!

Course begins in

DECEMBER

2024

Course Fee for Students:

700 SHEKELS

(subsidized by the the Israeli Ministry of Economy)

Employment in the Field:

Starting salary of

10,000 SHEKELS

per month

Eligibility Criteria:

- Age: 18 years and older.
- High school or vocational education.
- Good proficiency in Hebrew (the course and state exam will be in Hebrew).
- You have not used your right to subsidized courses in the past three years.
